Dear Martin

Traditional Rendering and Plastering

Many thanks for the work that you have put into our project over the past few months.

We appreciate that we are biased, but we think that the external lime render and traditional lime plastering inside the property gives a stunning finishing touch to the property and it is something that has been universally positively commented on by all of our visitors.

As you know, when we first started out on our project, we had little understanding of any aspect of renovation. Your impartial, honest and friendly advice, followed by an unwavering attention to detail when undertaking the work has been instrumental in helping us to deliver the home of our dreams.

We would be delighted to show any aspects of the work you have undertaken to prospective new clients – you will receive nothing other than a glowing reference from us.

We wish you all the best for the future and look forward to working with you on the next project we undertake – albeit don't expect that to be for a few years yet!!

Thanks again.

Simon
